# Academic Year in English in Quebec City

2025-2026

**This English Program for teenagers offers a unique opportunity to improve your English level in a French environment by integrating into a secondary school program (grades 7 through 11), while living with a French-Canadian family and by participating in cultural activities and excursions.**

Participants are assigned to a local educational institution, and hosted by a local francophone family.

## Host Families

Students live with their host family on a full board basis. Families include their guest in their family activities and share important aspects of their culture. They share day-to-day life, including leisure and outings, and in return they are asked to comply with the family rules. Host families are local French-speaking or bilingual (English-French) families, screened and selected to ensure an optimal cultural experience.

In addition to screening host families, Edu-inter offers support 24/7, as well as monthly reports to inform parents of their children's social and academic progress.

## École Secondaire

The program is offered in collaboration with a number of high school-level institutions in Quebec City, called *École Secondaire*. In Quebec, the *école secondaire* covers grades 7 through 11, situated between elementary school and CEGEP. The CEGEP institutions prepare students to enter university.

The institutions participating in this program include public schools and schools with special orientations.

## Life in Secondaire

Program participants have an opportunity to live and learn in the most natural (and effective) way possible: through interaction with peers. Participants are integrated into the academic program as well as the school life. They are able to participate in extracurricular classes and sports, and other school events just as the local students.
